January 2016

Our 28th Year

## *From the Chapter Director*

Happy New Year everyone! It seemed that winter was never going to get started and then it happened on December 30<sup>th</sup>.....Snow!! You would have never guessed that we would have 63 degrees on Christmas Day. I made my Christmas rounds visiting friends and family on my Gold Wing. I should have had a Santa suit for the ride. It started out at 9 AM at 43 degrees and was up to 63 by 3 PM. What a beautiful ride. I even filmed it on my GoPro camera that I recently got. When I figure how to edit it, I will post it up on Youtube for you all to see.

We had an excellent turn out at the annual Chapter G Holiday Dinner at the Greenside on December 10<sup>th</sup> with 32 in attendance. After dessert, I made the announcement that Carole and John Sheehan were the 2016 Chapter NH-G couple of the year. Carole and John received their Couple of the Year pendants from outgoing 2015 Chapter G Couple of the Year Bob and Beryl Reid. Carole and John both seemed very surprised at their appointment. I know that they will take this honor with pride and do us all proud at the upcoming New England States Rally in Lebanon, NH this coming July.

John Sheehan has been very busy these past few weeks with the ride schedule. He has some open dates to fill and

is looking for ideas to complete the schedule. That being said, the 2016 Chapter G ride schedule will be the BIG topic of conversation this coming Saturday, January 9<sup>th</sup> for our January Chapter Gathering at my home in Canterbury. A draft of the schedule is published later on in this newsletter. It will be posted to the website when it becomes final. To all you Chapter Snow Birds down in the warmer climates, you had better get your riding boots out and polished up because we have a very busy ride schedule this coming season.

Due to the closing of the Greenside for the months of January and February, we "Hit the Road" so to speak and have Pot Luck Gatherings. January's gathering starts at 6PM. My address is 161 Shaker Road, Canterbury, NH. Turn up Shaker Road off of route 106 next to the 106 Beanstalk store in Loudon, go exactly 1.5 miles, and my house is on the right (yellow ranch house with a green metal roof and a two car garage underneath). Come through the door between the garage doors and come on upstairs. Please email me at [gwrra.nh-g@comcast.net](mailto:gwrra.nh-g@comcast.net) and let me know if you are bringing a main dish, a salad, or a dessert. The Chapter will provide beverages.

On another note, please keep in your thoughts and Prayers Lee Hirtle who is going in the hospital on January 5<sup>th</sup> to have a tumor removed from one of his kidneys

See you all on the 9<sup>th</sup> at my home in Canterbury!

### **Still Riding in December!**

Normally we would have all had our bikes put up for the winter by the beginning of December but 2015 has many members out enjoying weather in the 40's, 50's and 60's. Just throw on some heated gear and many were off on adventures like the Kanc in December! I think had it not been for the fog many members may have ridden to the Holiday Dinner celebration!

While we took some solo rides we also took every advantage to ride with fellow members like Howard Towne (NH-G) and Ron Black (NH-E). And to end the year in style we took a Christmas Day ride to Nubble Light with Howard Towne! Not sure it gets any better than that.

### **Couple of the Year!**

John and I want to thank the entire chapter for choose us as the 2016 Chapter Couple of the Year. We had fun in 2015 doing what we could for the chapter and the district because we want to grow the membership, make new friends that share our love of riding, and increase the amount of time we are on the bike and open roads.

The award was not necessary in our view. To say that we were surprised was an understatement. It is an honor to share the distinction with folks like Bob and Beryl Reid.

## Guest GWRRR Rider Education

### “WHERE FROM HERE?”

by Ace (Howie) Peterson  
Guest Educator CO-Q

2016, another year lies ahead of us full of promise, and hopefully great adventures involving lots of riding, fine food, great scenery, warm days, and smooth pavement. This past year I have covered many facets of rider safety information, hints, and tidbits that have hopefully provided reasoned input to enhance our riding skills, and general information to keep our rides enjoyable and safe. At times, it seems as if I am going over information that we have already heard as in the proverbial “if I have told you once, I have told you a hundred times”! Up to a point, repetition is valuable as a method to reinforce learning process(s). After that, repetition may well become “done that, heard that” in nature.

As I have stated before, even if we have heard some training before, the old adage of “don’t use, lose it” still applies. Knowledge, like skills has a habit of disappearing into the background, filed away in some file within our mental computer under a heading we don’t remember. And as we age, for many of us, that is just the natural process of things. At one time I was a whiz at math, and now for the life of me I cannot even remember simple theorems from high school! Not that I really need these any more, however, at times it is the critical knowledge along with skills that remains hid away just when we need it the most. Thus it is back to repetition, however, I will still attempt to come up with topics that provide food for thought, and bring along the needed training for upgrading skills, and levels of rider education.

You the member have some homework for the coming year, namely if you read an article on motorcycle riding, or any other subject that you feel may be a good topic for a newsletter, or presentation at our meetings, pass it along to me. When it comes to borrowing others information, I don’t even blush with shame! Heck, as long as the proper folks get the credit where legal or otherwise, all information sharing is good.

Therefore, as the title says, where to from here for 2016? In looking at the database, we will need to schedule some seminars and classes for the coming year. Several members need new or updating on Co-Rider; MFA will again be offered; riding courses at the district convention in August for those needing those; Parking Lot Practice for both forms of motorcycles this spring; another Road Captains Course; Tour Riding for the membership to compliment the Road Captains Course, which will get the “have too’s” out of the way. I plan on having a trailering course this spring as well, which we can use both for enjoyment along with training. There are some other items we may use at our chapter gatherings as well that play into rider education and can be done in a brief time period. Don’t be surprised if some of you become victims, oops, I meant voluntold’s, er...well, you get the picture. All in the name of good clean, mostly fun, as well as training.

One thought for 2016 involves using each ride as a training run implementing those skills we have been taught, seen in videos, or even read about in magazines. These however, should not include front wheel stands, wheelies, and the like! Maybe when we were younger....Using each ride as training assists us in keeping our heads in the “game” instead of mentally disappearing in the mental fog that so often creeps into our mindset. I realize this may a little tough on those long straight runs down the super slab, yet focusing on speed, lane position, and traffic can assist there as well. Remember the “what if” exercise? Another great exercise while riding. Between now and spring, don’t let PMS (parked motorcycle syndrome) get you down.

**And as always, ride with Pride and Confidence!**

## “January, January”

No, the title of this article is not a typographical error. I didn't stutter. But I did repeat myself for a reason, which I'll get to in a following paragraph.

As I'm writing this for the January issue of our Chapter's newsletter, I couldn't help thinking about the first month, and what it's named for, and how it relates to Motorist Awareness.

January is the first month of the year in the Julian and Gregorian calendars and one of seven months with the length of 31 days. The first day of the month, known as New Year's Day, looks both forward to new events and challenges and backward to consider how we all did in the previous 12 months. Indeed, it's altogether appropriate to consider January as a month to “look twice.”

In ancient Roman religion and myth, Janus is the god of beginnings and transitions, and thereby of gates, doors, doorways, passages and endings. He is usually depicted as having two faces, since he looks to the future and to the past. (See the image of the two faces of Janus accompanying this article.) Although some folks think the month of January was named for Juno, another Roman god, I favor the opinion that naming it after Janus makes better sense.

The god Janus was also said to preside over the beginning and ending of conflict, and hence war and peace. The doors of his temple were open in time of war, and closed to mark the peace. As a god of transitions, he had functions pertaining to birth and to

journeys and exchange, and he was concerned with travelling, trading and shipping.

So what does any of this palaver have to do with Motorist Awareness? It's really a good reminder that (especially during January when dirty, icy smears coat almost every vehicle's side windows and rearview mirrors) motorists should consider the example of Janus and look twice to save a life. At an intersection, look left, then right, then left and right again. Think of the article title—“January, January”—as you do so. It will be a little reminder of how to be sure there's not trouble/conflict/war coming quickly toward you when you least expect it.

Well-trained motorists realize that looking twice is a wise practice. And practice it you should! Sometimes, the most unexpected things can appear suddenly outside your vehicle even in January. Deer, elk, dogs, sheep, moose, snowmobiles, motorcycles, sidewise skidding garbage trucks—they all can come careening toward you when you least expect it.

So, this month, take a tip from your buddy Janus. Do twice as much looking for trouble and your year ahead will be more peaceful, more healthy, and more fun. Think “January, January.”
